Q01b. Grant Information - User-supplied
          Grant Information
         The APR you are reporting on is for the following grant. This data in
         this form is prepopulated from data exported from e-snaps and
         LOCCS.
         All information in the APR must be provided for the Operating Year as
           If the term of the grant was formally extended by HUD and the local
           HUD field office updated LOCCS accordingly, the term in months
           would show as more than 12 months and the Operating Year End
           Date would be adjusted accordingly. If an extension was received for
           filing the APR no term change would be made in LOCCS and the
           reporting period will remain the same. All information submitted in
         this APR must reflect the full operating year.
          The Operating Year is established in LOCCS with the first draw of
          funds on the grant. If it is not correct, contact the local HUD field
           office directly for the date to be corrected in LOCCS. Once it is
           corrected and the data has been transmitted to Sage the form will
           automatically update. You cannot change the date yourself either
          through LOCCS or in Sage.

Q28. Financial Information

Pension or retirement income from a former job

This grant year we added a provider who uses Housing First. While not all of our referring agencies use Housing First, this was our first attempt to see how it would work. After a year of being housed 83% of the chronically homeless individuals who were housed remain housed at the end of the year. The City of Topeka is excited about this new venture and will continue our efforts to reach the most

vulnerable in our city.

We are equally excited that so many people remained housed this

Please describe any significant accomplishments achieved by your

program during the operating year:

vulnerable in our city.

We are equally excited that so many people remained housed this

year and did not exit. We have a significant number of households
that have been on the program for years and are successful.
