

City of Topeka “Basic” Development Review Flow Chart

Note: The Development Review flow chart is intended to graphically illustrate the basic steps in the overall development review and permitting processes for our customers. The flow chart does not anticipate all the conditions that may arise on a given development project and should only be used as a reference. City of Topeka Planning and Development staff will lead processes to determine exact steps and information required based on adopted codes and policies. Questions about the process can start by calling 785-368-3704.
