Residential Growth

The total number of residential building permits issued in the City of Topeka are an indicator of housing growth. The number of new residential building permits (by units), when comparing June 2022 to June 2023, decreased 23.4% from (47 vs 36). Additions and alterations increased by 41.1% the same from June 2022 to June 2023 (95 vs 134).

Tracking total new housing unit types can be an indicator of more quality housing choices and affordability in keeping with the priorities of the City’s Housing Market Study and Land Use and Growth Management Plan 2040 (LUGMP). From 2010 to 2019, the share of new non-single family units surprisingly did not grow, accounting for only 39% of new units. While the sample size is much smaller, an important reversal of that trend (65% non-single family share) is taking place since 2020.

In order to evaluate 2015 policy changes made in the LUGMP, tracking the location of new residential dwelling units created within Topeka (City), Urban Growth Area (UGA), Extra Territorial Jurisdiction (3-mile ETJ), and Shawnee County is vital. The City’s share of new dwelling units compared to all of Shawnee County was 37.1% through June 2023 (36 out of 97 units) compared to 50% in 2022.
