Small Business Grants Program

Purpose:

The Small Business Grant Program provides operating assistance to business owners employing 1-25 persons and have suffered a loss due to COVID-19. The source of the funds is HUD's Community Development Block Grant (CDBG-CV) program and therefore businesses must be owned or employ low-moderate income persons. The applicant can apply up to \$20,000 in assistance for eligible expenses that occurred after 3/17/20 including:

- Payroll
- Rent/Mortgage
- Utilities
- Loss of Inventory
- COVID Related Purchases

Applications will be accepted continuously until funding has been depleted. Applicants will have until October 20, 2021 to use the grant funds. Minority and Women owned businesses will receive priority in the selection process, and 25% of the total grant allocation will be set aside for MBE/WBE businesses. Grants can't duplicate funding requested and received through other federal sources or programs.

Homeless Emergency Solutions Grant (HESG)

Homeless Emergency Solutions Grant (HESG) is a competitive grant process that agencies can apply for each year. The Continuum of Care approves the selection of the sub-recipients. HESG can only be spent for Rapid-Rehousing, Homeless Prevention, Homeless Management Information System and Shelter Operations. HESG is funded by HUD. The City was awarded nearly \$1.9M of HESG for COVID-19 related expenses (HESG-CV) to prevent homelessness in 2020.
