WHAT CHANGED FOR 2020?

NEIGHBORHOOD HEALTH 2017-2020

Healthy Out Patient At Risk Intensive Care

117 block groups

↑ **11 block groups**
Better Health Rating

↓ **1 block groups**
fell into Out Patient

↓ **3 block groups**
fell into At Risk

↓ **3 block group**
fell into Intensive Care

CITY-WIDE HEALTH TRENDING UP

Census block groups

2017

*Intensive Care/At Risk
cut from:
28% to 27%(2017)
37% to 27% (2000)*

2020

*Healthy/OP
improved from:
72% to 73% (2017)
63% to 73% (2000)*

2000

NIA HEALTH TRENDING UP

Census block groups

2017

Healthy/OP
improved from:
36% to 44% (2017)
23% to 44% (2000)

Intensive Care/At Risk
cut from:
64% to 56% (2017)
77% to 56% (2000)

2020

WHERE?

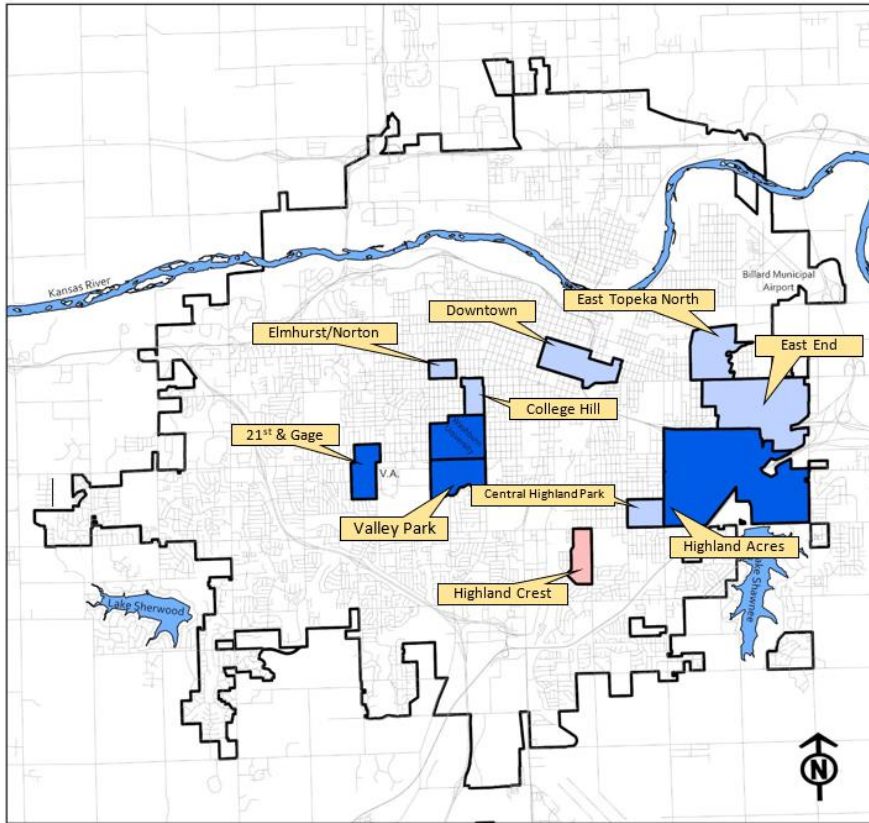

"Better" Health Rating 2017 - 2020

(Color Change)

"Worse" Health Rating 2017 - 2020

(Color Change)

Healthy Out Patient At Risk Intensive Care

Healthy Out Patient At Risk Intensive Care

WHY?

LARGER TRENDS

COVID-19

Pandemic impacts not evident yet; 2020 indicators lagging

ECONOMY

Fewer people in poverty; improved job market

HOUSING MARKET

“For-sale” inventory very low; values appreciating; less desire to own

PROPERTY MAINTENANCE

More blighted and vacant structures cited; improves property values and homeownership rates

2017-2020

NIA block groups

SF HOME OWNERSHIP

UNSAFE STRUCTURES

SORT ANALYSIS

Better Health Scores

76% (19) of NIA Target Areas saw a positive or neutral improvement to Health Scores

And a

16% increase in actual Health Classification

Worse Health Scores

24% (6) of NIA Target Areas saw a decrease in Health Scores

And a

3% in actual Health Classification

Overall

Cumulative 13% increase in all SORT Target Areas

compared to

a 3% decline in Non-SORT “At-Risk” and all other City-wide Block Groups

HOW WILL FINDINGS BE USED?

- Help public understand trends/data
 - Open access to data online
 - Reach out to impacted neighborhoods & CAC
- Update programs and measures
 - NRP tax rebates
 - SORT/DREAMS
 - Property Maintenance
 - Neighborhood Partnerships
 - Affordable Housing
 - Other

SUMMARY

HEALTHY GAINS FOR MOST

More areas improved than not since 2017; East Topeka continues it's rise

ECONOMY MATTERS

Property values and incomes positively impacted, COVID impacts TBD

PROPERTY MAINTENANCE MATTERS

Ramped-up anti-blight initiatives will help overall ratings even as more properties are cited

LONG-TERM NIA HEALTH TRENDING UP

Healthy and OP blocks groups nearly double since 2000
